FREEZE OUT.

Something More of the Game Now Being Played in Carson.

The recent development now being made in the little freeze out game now being played by four newspapers in this city is creating considerable amusement all over the town. For a good many years past it has been a matter of wonderment all over the State how so many papers could live in Carson. It is a mistaken idea however, that any considerable number of papers ever lived in Carson.

There has always been room for one morning and one evening paper in this city, and no more.

Some years ago the Times was started with a great flourish, and its publisher boasted that in six months the APPEAL would pass to the cemetery. The publisher conceived the idea that by taking large quantities of job work at less than the cost of the paper he would deprive his rival of the business and freeze him out. He kept up this method of warfare a few months and the Sheriff gathered him in.

Then a number of discontented types who had been dropped from the APPEAL's pay roll for various causes, started the Index. The Index management thought that by taking commercial advertising for a dollar a month, and legal advertising for 10 cents a square it would direct all the trade from the other papers and eventually make a place for itself. It was Republican, Democratic and Mugwump in turn. The proprietor got up every morning early, to inquire if some Carson newspaper had not died in the night, until he got very weary of the contract he had taken upon himself, and he went East for rest.

In the meantime the Union, thinking there was a loud public call for a new paper, hoisted the anti Chinese banner and announced that the only real independent people's journal that Carson had ever seen was here at last and come to stay. The editor placed his talent and experience against the money of some hot-headed Mugwumps, and now the money and experience have changed hands; both sides lose by the swap, and John Egan, the owner of the building, is on the trail.

The situation is just this: Six years ago the Tribune and APPEAL were having a little social game of freeze out; the stakes being the job work and advertising that naturally belongs to a town of 3,000 inhabitants. The Times man wanted to join the game. He stayed in a few days, lost about \$4,000 and left the game a sadder and wiser man.

The Index man had a banking for the table and sat down; but after monkeying with the proposition for five or six years he turned his hand over to another party with the assurance that it was all trump, and slipped out of the room before the other discovered that deuce high was about the extent of it. The Index now passes its hand, only coming in semi-occasionally on the deal.

The Union is now fairly in, and is just beginning to realize that the other two players are "keeping him in the middle," and what is still worse, the poor unfortunate stockholders are also just getting on to the peculiarities of the situation.

Did The Square Thing.

On Sunday last L. O. Benedict, recently convicted of embezzling the funds of the Odd Fellows' Lodge of Eureka, met Warden McCullough on the street and informed him that he had been sent to the Penitentiary for two years from Eureka, and wanted to be shown to his cell. He showed the commitment, and McCullough, quite astonished, looked them over; but not knowing Benedict, asked for further proof and compelled Benedict to write to the Eureka Sheriff in Reno for it. It was duly received and Benedict accompanied McCullough to the Prison.

He had reached Reno with Sheriff Sweeney and asked for a day to see Reno friends. Sweeney who had known Benedict for years placed his prisoner on his honor, he promising to report in Carson on the following day, which he did as above described. He certainly ought to start with a big credit mark.

—The Atchison, Kansas and Topeka R. R. has ordered a million dollars worth of steel rails in England. This looks like a transcontinental line to the Pacific.

ARTESIAN WELLS.

Two Styles of Boring Compared.

Yesterday Messrs. McLaughlin & Hawkins finished an artesian well for Ben. Edsworth, on his ground North of the city. Some months ago a firm in San Francisco bored Mr. Ellsworth a well on the same piece of land, and sunk a pipe seven inches in diameter.

The result was a flow of pure water amounting to 3 gallons a minute. McLaughlin & Hawkins sank a pipe three inches in diameter and by the improved system of steam sand pumping, established a reservoir at the foot of the well and obtained a flow of six gallons a minute. The two wells are but fifty yards apart, and thus everybody has an opportunity of comparing the two different methods of sinking artesian wells, and the results obtained.

A Big Irrigation Scheme.

The Inyo Register of April 14 says: Parties from Carson and Reno have been paying frequent and prolonged visits to Inyo of late, and while it was potent, some enterprise was in contemplation, just what, could not be ascertained until recently. The facts are, however, as we have learned, that the largest irrigation canal in the country is soon to be commenced, and some 10,000 acres of land brought under cultivation. The canal is to be taken from the river on the Eastern side, near Chrysopolis. Its capacity will be 15,000 inches its width fifty feet at the bottom, and the estimated depth of the water will be three feet. Twenty thousand acres of land have been located, and the ditch to reach this land will be 25 miles in length—in fact, extending from the point mentioned clear to the lake. There is abundant capital and energy behind the enterprise, and it will undoubtedly be pushed to completion.

Returning Past Favors.

Last Fall when the Mugwumps captured the Democratic county convention, the ticket which they nominated was so obnoxious to the regular Democrats that they joined the Republicans for the time being and united with them to see how deep they could snow it under. They did it in fine style, too.

Now it is proposed to run the editor of the Union, a Mugwump, against George Bryson, a Democrat, as City Trustee.

Under the circumstances the Republicans of Carson should not forget the assistance rendered them last Fall by the good honest Democrats of the city, and they should reciprocate the favor by electing Mr. Bryson by a handsome majority. He has shown himself a very capable and honorable man in the conduct of city affairs, and his municipal record entitles him to recognition. Again, he is a license and taxpayer, and ought to carry the ward by 100 majority.

To Survey the Central Pacific.

Surveyor General Jones appointed T. J. Reed, of Eureka, a Deputy Surveyor, Tuesday. The appointment was made in accordance with the law passed at the last session of the Legislature, providing for the survey of the main line of all the side tracks of the Central Pacific Railroad in this State for the purpose of taxation. Mr. Reed will survey all of the road in Elko, Eureka and Lander counties. Another Deputy will be appointed to survey the road in other counties through which it runs, viz: Humboldt, Churchill and Washoe.

Fought Back.

A few days ago Madam Mercedes missed some clothes, and sent Constable Hawthorne to Reno after John and Mable Baldwin, suspected of having stolen them. He brought the couple back yesterday and turned them over to Landlord Uilrick.
